

SymmetryLearningSystems™

SymmetryScience is founded on the idea that science literacy is critical to the success of a free and democratic society. The story and practice of modern scientific inquiry is the story of human liberation and freedom. By developing effective tools that move all individuals toward the goal of scientific literacy, SymmetryScience is dedicated to the freedom and creative power that a scientific viewpoint will provide to all people.

Table of Contents

Let's Learn With Science - Entry

Sorting & Grouping

Pattern Making

Patterns of the Body

Let's Learn With Science - Level 1

Human Senses & Physical Properties

Properties of Plants & Animals

Properties of Rocks & Soil

Let's Learn With Science - Level 2

The Patterns of Heredity

The Patterns of the Weather

Patterns of Motion

Let's Learn With Science - Level 3

Exploring with Science: Slime, Spots & Models

Patterns of Light, Heat, & Shadow

Patterns in the Sky

Segments Curriculum - Level 4-5

Physical Science
The Electric World, Magnets & Magnetism, Heat

Biological Science
The Pattern of Life

Segments Curriculum - Level 5-6

Physical Science
The World of Gravity
Electromagnetism

Chemical Science
Atoms & Elements

Biological Science
The Elements of Life

Earth Science
Rings of Fire

Segments Curriculum - Level 6-7

Physical Science
Spark to Circuits

Chemical Science
Mystery of the Electric Lemon

Biological Science
The Microscope

Earth Science
The Atmosphere

Segments Curriculum - Level 6-8

Physical Science
Light & Color
Energy, Work & Machines

Chemical Science
Chemical Reactions & Compounds

Earth Science
Earth & Oceans

Segments Curriculum - Level 7-8

Physical Science
Using Electromagnetism
Sounds & Waves
Newton's World

Chemical Science
Electrochemistry

Biological Science
Plants & Animals
Food & Biological Chemistry

Earth Science
Stars & Planets
The Weather
Mountains & Streams
Rocks & Minerals
Ecology & Environments
